

EQUINE RHINOPNEUMONITIS
(Equine herpes virus infection)

Article 2.5.7.1.

Standards for diagnostic tests are described in the *Terrestrial Manual*.

Article 2.5.7.2.

Veterinary Administrations of importing countries should require:

for equines

the presentation of an *international veterinary certificate* attesting that the animals:

1. showed no clinical sign of equine ~~rhinopneumonitis~~ herpes virus infection, on the day of shipment and during the 21 days prior to shipment;
2. were kept for the 21 days prior to shipment in an *establishment* where no *case* of equine ~~rhinopneumonitis~~ herpes virus infection, was reported during that period.
